### Me

English, Traditional Chinese, Japanese

Definitely worth it if you hate level-grinding (which I do). Super easy repeatable quest that takes maybe 60 seconds max, and really does give loads of exp. Doing this quest around 7 or 8 times took my party from the mid-30's to the mid-60's level. Don't forget to use pendulum of experience for an extra-extra exp boost.. Definitely worth it if you hate level-grinding (which I do).
